SERIES SPECIFICATIONS

To supply and install Tamlite's TLHB Series of fluorescent high-bay fixtures as specified. The luminaire shall operate at 120, 277, or 347VAC and use high efficiency electronic ballasts. The housing shall be constructed of powder-coated steel with hinged back-plate to allow for easy ballast and wiring access. The reflector shall be made of highly specular material and contoured to maximize light output efficiency. All parts shall be corrosion resistant. Lamps shall be as specified, linear fluorescent lamps up to a maximum of the rated lamp wattage on the fixture nameplate. The lamps shall not be supplied with the luminaire. The fixture shall be c-UL-us approved.
